EMERGENCY SERVICES

When disaster hits, time is the enemy. At Signal, our Rapid Response Team provides immediate assistance in securing your business from the elements to prevent additional damage. You can count on it.

INSURANCE SOLUTIONS

Signal has established our Insurance Solutions Group to assist our customers in navigating the complicated landscape of insurance. Our group works with clients and their brokers, to help prepare for a large and complex loss. If that loss occurs, we consult on coverage, pricing, and settlement, and assist in determining methods to mitigate. We maintain strong working relationships with insurers, adjusters, and consultants to facilitate claim resolutions. This group is led by David Passman. He has over 45 years' experience working for the three largest global brokers preparing clients for and managing large losses.

FIRE, SMOKE & ODOR REMOVAL

Once the fire is out, the damages to your property continue, caused by heat, soot, smoke, water, etc. Our professionals are trained to examine surfaces, building materials, and contents to identify damage and create an effective restoration plan.

WATER REMEDIATION

Water damage restoration includes the complete process of water extraction, drying (structure and contents), and cleaning. Water can damage property and, if not addressed promptly and properly, it can lead to a dangerous mold problem. At Signal, our technicians are trained to identify the source of the water and then remove it from your site. During the water extraction process, we monitor and document the process to make sure the job is completed with precision.

GENERAL CONTRACTING SERVICES

Signal is a full service general contracting company that specializes in large loss commercial and high-dollar private home insurance restoration. Our team has extensive experience in rebuilding structures damaged by fire, water, and natural catastrophes. We provide services for hospitals, health centers, hotels, schools, churches, multi-family, and other residential properties. Also, we work with the property or business owners to develop plans and quickly perform the construction. As a result, we help the property and business reopen faster.

MOLD MITIGATION & REMEDIATION

Mold can present serious health risks for you and your employees. At Signal, our mold remediation experts are trained to identify and remove all types of mold from your building.

Relentless Customer Service 24/7/365

EMERGENCY POWER

In disaster situations, power is often cut off or unavailable. Relying on our partnerships, Signal is capable of providing emergency power wherever and whenever you need it. Our full range of emergency power equipment enables us to solve any power issue you may experience.

BIOHAZARD REMEDIATION

Signal Restoration's technicians are highly trained and certified by the Division of Occupational Safety and Health (DOSH). They comply with all Occupational Safety and Health Administration (OSHA) standards when performing biohazard cleanup jobs. Our employees receive regular recertification training on safe workplace cleanup procedures. They also receive training in hazardous material handling to ensure your cleanup is performed quickly and safely.

ENVIRONMENTAL SERVICES

Asbestos, lead, sewage, and chemical spills pose serious health risks and must always be handled with great caution. Our experts are trained and qualified to provide an immediate response, as well as non-emergency cleaning. We can handle hazardous materials, chemical spills, lead paint exposure, and asbestos concerns.

CLEANING & REPAIR

From carpet and upholstery to flooring and specialty items, Signal experts can clean it all. Our cleaning & repair expert will handle your property with great care.

BOOKS AND RECORDS

Signal can secure and restore virtually any type of record contained in your business. Those often include books, documents, photos, blueprints, CD's, and hard drives. Signal uses advanced technology to carefully remove, transport, and restore your most important records back to their original form.

ELECTRONICS & EQUIPMENT RESTORATION

Signal's professionals have experience in electronics and equipment cleaning and restoration. We take a "full-spectrum" approach to assess the damage, determine the level of maintenance and execute a repair process. The goal is to bring your electronics and equipment back to their original condition.
