## We Are Here To Assist With

### Inventory Organization

We examine stock rooms and suggest organizational assortment boxes and bins. We schedule reorders so that you are always fully stocked with the necessary products.

### New Products

Our account managers have samples of new items each month to show you. These items are selected and introduced with the intention of making your job quicker, easier, and more enjoyable.

### Online Shopping

We provide an online shopping experience with an extensive selection of maintenance and repair products from dozens of brands. Create favorites lists and save carts for easy reordering.

### Product Research

From identifying repair parts to obtaining original and crossover items, we can always supply you with the item you need

*“There are many times my sales rep has gone above and beyond. I regularly run into very hard to find parts I need. Most times, he knows exactly what I'm describing, and has no trouble finding the parts for me.”*

## ABOUT US

### Our values

- ▶ **Time:** We do the research so that you don't have to. In today's fast paced work environments, few workers can take the time out of their day to research an old, unidentifiable part for an item number to place a re-order. We simply ask for photo of the part in question, and we'll do the research to locate it.
- ▶ **Constant Improvement:** Each month we introduce exciting new items. We hand-pick items to bring you the latest industry standards.
- ▶ **Trust:** Our 50+ sales representatives will go the extra mile to provide personalized service to every individual. Our sales representatives ensure customized catalogs, no charge stockroom conversions, and a quick response time to your needs.
- ▶ **Money:** Our innovative inventory control solutions will improve work-flow and organization, while reducing inventory loss. We strive to provide you with the best solution to your stockroom needs so you can spend less time searching for parts and more time solving issues and completing important tasks around your facility.
